Now you can access board-certified emergency medicine physicians who can evaluate, diagnose, and treat a variety of minor medical conditions online or over the phone with our partners Stat Doctors. Whether you or someone in your family wakes up with the flu at 2 a.m., or you forget your medication while traveling, **Stat Doctors** has you covered. They can even send electronic prescriptions to any pharmacy in the United States. With Stat Doctors, you have 24/7/365 on-demand access to quality healthcare any-time, anywhere in the country. Best of all, **Stat Doctors is free to all Health Republic members, ages three and older, regardless of plan.**

Stat Doctors is a great way to avoid the Emergency Room or urgent care center when you don't have a real emergency situation. Studies have shown that **71% of ER visits by privately-insured patients are unnecessary and avoidable.** Additionally, there's a high risk of exposure to illness in many ERs and Urgent Care Centers. So skip the hassle, save money, and stay healthy!
