

HEALTH REPUBLIC

INSURANCE OF NEW YORK

Dear Valued Member,

In our continued efforts to improve the cost and quality of care for our members, we've updated our Medication Formulary for 2015. Unfamiliar with our Formulary? It's the comprehensive list of prescription drugs covered by your health plan. Once you have met your deductible, the drugs on this list are available to you from participating pharmacies at no cost or at co-payments significantly reduced from retail prices. (Please note that not all plans require you to meet your deductible before co-pay prices go into effect, so be sure to check your plan's Certificate of Coverage.)

The formulary can be found on [our homepage](#) or in your Member Center under the Pharmacy tab. Be sure to review the changes for 2015. These changes include:

- **Additions** – We've added hundreds of drugs to make finding the appropriate medications easier for our members.
- **Deletions** – We've removed a number of high-cost, under-utilized drugs from the formulary, which will help keep costs down for everyone.
- **Reduced Prior Approval Requirements** – Based on feedback from you and your doctors, we've revised our prior approval list to ensure efficient and timely delivery of your medications.
- **Tier Level Adjustments** – Based on a review of available alternatives, drug effectiveness, and changing costs, some drugs may have changed tier levels, which will affect your co-pay.

The 2015 Formulary is effective for all members beginning 1/1/15.

Thank you for your continued support. We look forward to serving you in the year to come.
